

JND TIMBER & STEEL

BARRIER TABLE

DINING OR BAR HEIGHT

Our versatile Barrier Tables combine the functionality of a table and café barrier in one practical design. Available in both dining height and bar height, they are ideal for cafés, restaurants, bars and hospitality venues looking to define outdoor dining areas while providing additional table space. Featuring a galvanised, powder-coated steel frame and your choice of premium timber, each Barrier Table is Melbourne made and custom built to order.
