

THE ENVY CHAIR

The Envy Chair is produced using the latest single injection polypropylene air moulding system and it is reinforced with fibreglass and engineering plastic to provide additional strength and durability. Then we add UV protection to slow the fading process and make the colour last longer in Australia's harsh conditions. It has been designed for maximum comfort and with perfectly angled holes for ventilation, to keep customers cool on those hot summer days, to allow the water to drain should they be left in the rain and this also makes them light as air and easy to use.

Frame Colours

- Latte, Blue, Mango, Black, Charcoal, White, Red, Orange, Green

Material: Polypropylene single mould injection reinforced with Fibre Glass

Indoor and Outdoor use

No assembly required

Dimensions: D 520mm x W 520mm x H 820mm

Floor to seat: 440mm **Weight:** 3.9kg

Stackable: Yes, 4-5 high

Quality: Commercial grade

Warranty: 3 year warranty against faults arising from defective workmanship

Other Features: Lightweight Static Seat Load Tested to 250kg
